HTML CSS JS React Redux MUI

My Official Projects
Frontend

#07
Email composer and previewer

Walmart
Bangalore, India

An email previewer for developing Walmart's emails that also involves event payload injections, transformations, data enrichment with up-streams and a previewer tool for stakeholders to collaborate.

#06
Communication portal

Walmart
Bangalore, India

An online portal with drag and drop WYSIWYG editor to build communication templates for all Walmart's emails | SMS | push notifications.

#05
Clinical Note rendition of EMR

Cerner
Bangalore, India

Note rendition is an end-to-end project that aims at utilizing RESTful services to render a clinical note. This is a printable clinical report that houses the present and past clinical data of a patient.

#04
Quick Chart application EMR

Cerner
Bangalore, India

The vision of the project is to provide a responsive UI for the nurses and physicians to chart clinical data. Mobile first web framework . The process involved creating UI controls with Rails and creating gems for the same for future consumption

---

#03
MPage UI framework

Cerner
Bangalore, India

This is a project which is developed from scratch and I was the first developer to start the framework in Cerner India Nursing Team.

#02
SAS Drive Protocol Validation

**GRL Granite River Labs**
Bangalore, India

I was responsible for development of 600+ test cases for SAS Drive conformance in all the layers of the protocol stack.

#01
SAS HBA Validation test suite

GRL Granite River Labs
Bangalore, India

MSK Foundation

I have started this charity foundation to provide free education to the less fortunate students in India and for those who lost their job due to COVID.

My Side Projects
Websites, Apps & Courses

MSK Web development

I am teaching web development to junior and senior software engineers & providing them mentorship & interview guidance

Services
- Programming Bootcamps
- Interview guidance
- Blog articles

Website
mskwebdevelopment.com

MSK Coders

I created this website to organise your code snippets easier with git hub integration and developers will be able to share their code snippets to the world.

Features
- Git hub profile integration
- Multiple programming languages
- News feed of code snippets

Website
mskcoders.com

MSK Tech show

I am the host of this podcast where I cover latest tech news, programming tutorials, gadget reviews, interviews and more ...
